

HAWAIIAN ISLANDS HUMPBACK WHALE NATIONAL MARINE SANCTUARY

Sanctuary Ocean Count Preliminary Data - March 30, 2024

During the March 2024 Sanctuary Ocean Count, volunteers went to their designated sites on the islands of O'ahu, Kaua'i, Moloka'i and Hawai'i to count whales and record any other species seen. The count takes place from 8:00 am to 12:15 pm the last Saturday of January, February, and March of each year.

The preliminary data below represents the number of humpback whales (adults/calves) seen during each 15-minute count period by location. Only active site locations for the year are included. If a site is not listed it was inactive for the month. The behavioral data that is collected for the project is not part of this report.

O'ahu

Average Number of Whales per 15min Count Period: 2
